

Welcome to the University of Huddersfield, a COVID-19 secure environment.

Staying safe - Instructions for students, staff and visitors to campus

- It is expected that staff and students will be fully vaccinated. All students, staff and visitors are encouraged to wear face coverings indoors (unless exempt). We also recommend that all staff and students have the NHS Covid App operating on their mobile devices.
- You must not be on campus if you are positive for coronavirus and you should inform the University of your positive test at www.hud.ac.uk/important-update
- You must not be on campus if you have been instructed to self-isolate by the NHS Track and Trace app and must follow their isolation requirements.
- It is expected that staff and students without symptoms will get tested twice a week, either through the University testing centre or by picking up a home testing kit.
- For more information about how the University can support you if you have no symptoms and wish to use the testing centre or want to arrange a vaccination, visit www.hud.ac.uk/important-update

While you are on campus you must:

- Always use the hand-sanitizing stations when entering and leaving buildings.
- Wash your hands regularly and for at least 20 seconds.
- All students must swipe into timetabled teaching sessions with their student card.

Respect other campus users – remember you are part of the campus community and your safety and the safety of others depend on your actions.
