

Dear Students,

We would like to take this opportunity to emphasise that you are welcome at the University of Huddersfield and that we also value the contribution that you make to our community.

The triggering of Article 50 will not lead to any immediate changes for you as current European students of the University. You will continue to pay the same fees for your degree programme as a UK student and you will not need to apply for a visa to stay in the UK.

In addition if you are an applicant for 2017/18 you will also not see any change in your current eligibility for a loan or fee status for the duration of your course (even after the UK leaves the EU).

If you have any questions you may wish to contact the University Finance Office or the International Office on Level 4 of Student Central.
