

Environmental and Sustainability Policy Metrics and Targets

This document collates the targets and baselines for measuring progress in implementation of the Environmental and Sustainability Policy. Where a specific target date is established, the owner is indicated, otherwise a baseline and desired direction of movement is stated, and year-on-year continual improvement is expected.

Headline Targets

| Area | Specific Target (with units) | Measurement method | Achievability | Relevance | Target date/ timeline |
|------------------------------|--|--|--|--|---|
| Construction & Refurbishment | At a minimum, buildings at the new Southgate Campus will be built to BREEAM and WELL Building Standards. | Certification to BREEAM Excellent and WELL Platinum Building standards | Close relationships with BREEAM and WELL consultants embedded in the design and construction process | Policy item 2, metric 2.5 below | Within two years of practical completion (e.g. Current projects - Daphne Steele certification due by Sept 2026) |
| Emissions & Discharge | Net zero emissions (including scope 1 emissions from F-gas discharges). | Annual calculations using EAUC framework, based on GHG Protocol | Significant reductions are achievable but will likely require use of offsets. | Policy item 1, c.f. metric 1.3.2.6 below | 2030 |
| Community involvement | Launch a central Sustainability Champions programme and recruit at least 50 participants | Number of registered Sustainability Champions | Collaboration with other departments | Policy item 3, metric 3.5 below | End of 2026/27 academic year |
| Biodiversity | Plant a minimum of 2000 trees annually as part of the university's yearly | Tree count per planting site | Partnership with tree planting providers and continued staff- | Policy item 4, metric 4.4. below | End of 2025/26 winter planting season and annually thereafter |

Environmental and Sustainability Policy Metrics and Targets

| Area | Specific Target (with units) | Measurement method | Achievability | Relevance | Target date/ timeline |
|-------------------------|---|---|--|------------------------------------|-----------------------|
| | tree planting programme. | | student volunteer recruitment | | |
| Waste management | Reduce annual operational waste generated on campus to below 700 tonnes from 2008/09 baseline | Tonnes per annum | Commitment to waste hierarchy | Policy item 1, metric 1.1.1. below | 2030 |
| Travel and Transport | Increase in proportion of staff commuting by active travel methods (walking, running, cycling) by 20% from 2008/09 baseline | Percent modal split | Will require investment in active travel facilities and incentives | Policy item 5, metric 5.3.2. below | 2030 |
| Sustainable procurement | Decrease in scope 3 emissions from procured goods and services from 2019/20 baseline | Total Scope 3 emissions (tonnes CO ₂ e) | Improved data availability including product-level carbon footprints | Policy item 1, metric 1.2.1 below | Net-zero by 2045 |
| Water | Reduce annual water consumption by 60% from 2015/16 baseline | Annual m ³ water consumption from billing data | Will require major water efficiency measures. | Policy item 1, metric 1.2.2 | 2030 |

Environmental and Sustainability Policy Metrics and Targets

Full List of Objectives

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|---|-------------------|---------------|---------------------------------|------------------|------------------------|
| 1. Resource Management | | | | | | | |
| Recognise waste as a valuable resource in line with the principles of the Circular Economy and develop efficient and effective waste management procedures to implement the waste hierarchy: prevent, reduce, reuse, recycle and responsibly dispose. We will prevent our waste from reaching landfill at all feasible opportunities | 1.1.1 | Reduction in operational waste generated on campus (tonnes) Includes General waste, food waste, dry mixed recycling (DMR), building materials waste from maintenance activities, metals, Waste Electronic and Electrical (WEEE) Excludes major construction | Decrease | 2008/09 | 1490 tonnes | Below 700 tonnes | Campus Support Manager |
| | 1.1.2 | Proportion of waste reused/recovered/recycled (%) | Increase | 2008/09 | 57.3% | 60% | |
| | 1.1.3 | Proportion of waste used to create energy (%) | Report | 2008/09 | 0% | 40% | |
| | 1.1.4 | Hazardous wastes managed effectively and safely. Total volumes and types. E.g., asbestos | Narrative report | | | Below 15 tonnes | |
| Implement practices and policies to reduce the environmental impact of the goods and services we procure to achieve | 1.2.1 | Total Scope 3 emissions (tonnes CO ₂ e) | Decrease | 2019/20 | 17,821 tonnes CO ₂ e | Net-zero by 2045 | Sustainability Manager |
| | 1.2.2 | Water consumption (m ³ /year) | Decrease | 2015/16 | 50,059 | 20,000 | Sustainability Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|--|-------------------|---------------|--------------------------------|--------------------------------|------------------------|
| our Scope 3 carbon neutral target[s]. | | | | | | | |
| Continually improve our energy and water efficiency in our direct operations, reducing our Scope 1&2 carbon emissions to | 1.3 | Total Scopes 1&2 emissions (tonnes CO ₂ e) | Decrease | 2005/06 | 7,614 tonnes CO ₂ e | Net-zero by 2030 | Sustainability Manager |
| | 1.3.1 | Total Scope 1&2 emissions (tonnes CO ₂ e) in line with Science Based Targets Initiative 1.5-degree scenario | Decrease | 2019/20 | 5,257 tonnes CO ₂ e | 3,050 tonnes CO ₂ e | |
| | 1.3.1.1 | Total Scope 1 emissions (tonnes CO ₂ e) | Decrease | 2005/06 | 2,427 tonnes CO ₂ e | Component of metric 1.3 | |
| | 1.3.1.2 | Total use of Natural Gas (kWh) | Decrease | 2005/06 | 13,118,334 kWh | | |
| | 1.3.1.3 | Reduction in gas use per gross internal area of campus space (kWh/m ² GIA) | Decrease | 2005/06 | 127.0 kWh/m ² | | |
| | 1.3.1.4 | Use of other fuels combusted in campus operations (excluding use in vehicles) (kWh) | Decrease | 2005/06 | 0 kWh | | |
| | 1.3.2.1 | Total Scope 2 emissions (tonnes CO ₂ e) | Decrease | 2005/06 | 5,187 tonnes CO ₂ e | | |
| | 1.3.2.2 | Total use of electricity (kWh) | Decrease | 2005/06 | 10,957,233 kWh | | |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|---|---------------|--|-------------------|---------------|--------------------------|--------|-------|
| | 1.3.2.3 | Electricity use per gross internal area of campus space (kWh/m ² GIA) Includes electricity generated on campus | Decrease | 2005/06 | 106.0 kWh/m ² | | |
| | 1.3.2.4 | Total use of electricity, including energy supplied from the national grid, and energy generated on campus (kWh) | Decrease | 2005/06 | 24,075,567 kWh | | |
| | 1.3.2.5 | Total energy use per gross internal area of campus space (kWh/m ² GIA) | Decrease | 2005/06 | 233.0 kWh/m ² | | |
| | 1.3.2.6 | Scope 1 emissions from refrigerant leakage (tCO ₂ e) | Decrease | 2023/24 | 188.7 tCO ₂ e | | |
| Reduce our reliance on fossil fuels to heat, cool and operate our campus operations, reducing our carbon emissions and improving our air quality emissions. | 1.3.1.2 | Total use of Natural Gas (kWh) | Decrease | 2005/06 | 13,118,334 kWh | | |
| | 1.3.1.4 | Use of other fuels combusted in campus operations (excluding use in vehicles) (kWh) | Decrease | 2005/06 | 0 kWh | | |
| Implement practices to reduce our demand on the national electricity grid, improving | 1.5.1 | Total Electricity generated on campus (kWh) | Report | 2012/13 | 3,473 kWh | | |
| | 1.5.1.1 | Electricity generated by Solar Photovoltaics (kWh) | Increase | 2012/13 | 3,473 kWh | | |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|---|-------------------|---------------|----------------------------------|---|--|
| efficiency, generating low carbon energy on campus, and encouraging the increase of renewable energy sources generating into the grid through our procurement contracts. | 1.5.1.2 | Electricity generated through combined heat and power units [CHP] (kWh) | Report | 2016/17 | 5,310 kWh | | |
| | 1.5.2 | Total energy procured through a renewable energy Power Purchase Agreement [PPA] (kWh) | Report | N/A | No agreement in place at present | | |
| Commit to the prevention of pollution by ensuring compliance with all relevant legislation regarding emissions and discharges. | 1.6 | Report in the event of a legal breach | Narrative Report | | | | Health, Safety and Compliance Manager |
| Reduce the use of harmful chemicals in our activities where a practical alternative methodology is available. | 1.7.1 | Report on methodologies implemented to reduce use of chemicals. - Estates & Facilities Cleaning services - School technical teams | Narrative report | | | Full reliance on organic-based products | Cleaning Services Manager Technical Services Managers |
| | 1.7.2 | Financial spend on chemicals for cleaning per gross internal area of campus space (£/m ² GIA) | Decrease | | | | Cleaning Services Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|---|---------------|---|-------------------|---------------|----------------|---|------------------------|
| Ethically source and conscientiously purchase food and materials related to its provision on campus. We will certify to welfare and sourcing standards and actively encourage local food production where possible. | 1.8 | Please see the Sustainable Food Policy for relevant metrics | | | | | |
| 2. Sustainable Buildings | | | | | | | |
| Close the performance gap between design and operation to ensure new and refurbished buildings have a lower carbon footprint throughout their operating lives. | 2.1 | Report on methodologies undertaken for each major project | Narrative Report | | | Component of metric 1.2 | Energy Manager |
| Design our new buildings and refurbish our existing campus buildings to enhance the wellbeing of its users. This includes accounting for access to natural light, thermal comfort, biophilic design principles, improving air | 2.2 | Report on methodologies undertaken for each major project | Narrative report | | | Buildings at the new Southgate Campus will be built to the WELL Building Standard. The Jo Cox More in | Sustainability Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|---|-------------------|---------------|----------------|---|------------------------|
| quality, access to nature both internally and externally, and sourcing of sustainable construction materials and textiles. | | | | | | Common Centre will maintain its WELL Building Standard at Platinum level. | |
| Efficiently and intelligently operate our buildings utilising the space(s) we have available through effective space planning and allocation and timetabling of teaching and events. We will move towards the principle of operating based upon need rather than assumption. | 2.3 | Implementation will lead to a reduction in Scope 1&2 Emissions (1.3.1) | Narrative report | | | Component of metric 1.3.1 | Space Manager |
| Measure the embodied carbon emissions resulting from major construction projects and put steps in place to minimise and mitigate their impact. | 2.4 | CO ₂ e/m ² gross internal area of construction (including external landscaping) | Narrative report | | | Scope 3 net-zero by 2045 | Sustainability Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|---|-------------------|---------------|----------------|---|--|
| Implement measurable and reportable sustainability standards and benchmarks in the design and construction of new buildings and major refurbishments, including, but not limited to, BREEAM and the WELL Building Standard. The minimum standards to achieve will be agreed by University Council in approving the undertaking of a project. | 2.5 | Publicly issue the standards to be achieved for each major construction project | Narrative report | | | At a minimum, buildings at the new Southgate Campus will be built to BREEAM and the WELL Building Standard. | Assistant Director (Property Services), Estates and Facilities |
| Design in adaptability and resilience to account for the impacts of the changing climate. | 2.6 | Report on methodologies undertaken for each major project | Narrative report | | | | Assistant Director (Property Services), Estates and Facilities |
| 3. Engagement | | | | | | | |
| Annually report on our progress in meeting our agreed targets, key performance indicators and implementation of | 3.1 | Report annually on activities | Narrative report | | | | Sustainability Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|--|-------------------|---------------|----------------|--------|------------------------|
| the policy statements in this framework. | | | | | | | |
| Enable research, foster innovation, and where practical implement new technologies, utilising the campus and our operations as a 'living laboratory' for advancement of sustainable development. | 3.2 | Report annually on activities | Narrative report | | | | Deputy Vice Chancellor |
| Build and maintain partnerships with local, national, and international organisations to reciprocally reduce our environmental impacts and participate in activities to enhance sustainable development and social responsibility. | 3.3 | Report annually on activities | Narrative report | | | | Sustainability Manager |
| Use our global reach to support achieving the targets of the UN | 3.4.1 | Submission to the Times Higher Impact Rankings | Narrative report | | | | Deputy Vice Chancellor |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|-------------------------------|-------------------|---------------|----------------|--|------------------------|
| Sustainable Development Goals through our research, teaching and operational activities. | 3.4.2 | Report annually on activities | Narrative report | | | | |
| Foster a culture of change in the university to improve our environmental performance; supporting Environmental and Sustainability champions to implement improvements in working practices and practical actions throughout our schools, support services and affiliated organisations. | 3.5 | Report annually on activities | Narrative report | | | Launch a central Sustainability Champions programme | Sustainability Manager |
| Engage and collaborate with the Huddersfield Students Union executive board, their affiliated student societies, and the wider student body in their actions to increase | 3.6 | Report annually on activities | Narrative report | | | Run a collaborative Sustainability Champions programme in partnership with the | Sustainability Manager |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|---|---------------|------------------------------------|-------------------|---------------|----------------|---|--|
| sustainable development and improve environmental performance at the University of Huddersfield. | | | | | | Students Union | |
| 4. Biodiversity | | | | | | | |
| Respect wildlife that resides on our campus and actively work to create, maintain, and enhance habitats with a rich variety of native plant species. | 4.1 | Report on methodologies undertaken | Narrative report | | | | Campus Support Manager |
| Create cohesive links to habitats outside the estate to create biodiverse Green Corridors. | 4.2 | Report on methodologies undertaken | Narrative report | | | | Sustainability Manager |
| Undertake landscaping works on campus that provide a biodiversity net benefit whilst also creating a connection to nature for users to enhance their wellbeing. | 4.3 | Report on methodologies undertaken | Narrative report | | | Conduct new green landscaping at suitable locations such as the old Edith Key site and the cantilevered | Assistant Director (Property Services), Estates and Facilities |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|--|---------------|------------------------------------|-------------------|---------------|----------------|--|---|
| | | | | | | overhang of the Barbara Hepworth building. | |
| Ensure that activities to offset the Universities carbon emissions which include habitat restoration or development, will result in a measurable net benefit to biodiversity, the environment, and the community local to the scheme being undertaken. | 4.4 | Report on methodologies undertaken | Narrative report | | | Plant a minimum of 2000 trees annually as part of the university's yearly tree planting programme. | Sustainability Manager |
| 5. Travel | | | | | | | |
| Enable students, staff, and visitors to campus to utilise active or sustainable travel methods in their journey. This includes enabling the adoption of Electric Vehicles through campus infrastructure and collaboration with | 5.1 | Report on methodologies undertaken | Narrative report | | | | Assistant Director (Facilities Management), Estates and Facilities |

Environmental and Sustainability Policy Metrics and Targets

| Policy items | Metric number | Metric | Desired direction | Baseline year | Baseline value | Target | Owner |
|---|---------------|---|-------------------|---------------|------------------------------|------------------|--|
| partner organisation e.g., Kirklees Council | | | | | | | |
| Reduce the emissions from operating the universities fleet of owned and leased vehicles and increase the adoption of Electric Vehicles in campus operations. | 5.2.1 | Total fuel used in university-owned (or leased) vehicles (litres). Excludes hire cars, or business travel | Decrease | 2015/16 | 9,853.9 litres | | Assistant Director (Facilities Management), Estates and Facilities |
| | 5.2.2 | Report on methodologies undertaken | Narrative report | | | | |
| Encourage the use of active and sustainable travel methods for journeys undertaken by staff and students in our operational activities, utilising technological solutions and avoiding air travel where possible. | 5.3.1 | Carbon emissions from business travel (tonnes CO ₂ e) (a component of Scope 3 emissions) | Decrease | 2019/20 | 376 tonnes CO ₂ e | Net-zero by 2045 | Sustainability Manager |
| | 5.3.2 | % staff commuting by active travel methods (walking, running, cycling) | Increase | 2008/09 | 10% | 20% by 2030 | |
| | 5.3.3 | % students commuting by active travel methods (walking, running, cycling) | Increase | 2017/18 | 40% | 45% by 2030 | |
| | 5.3.4 | % staff commuting by public transport | Increase | 2008/09 | 21% | 30% by 2030 | |
| | 5.3.5 | % students commuting by public transport | Increase | 2017/18 | 41% | 45% by 2030 | |
| | 5.3.6 | Number of cycle parking spaces | Increase | 2024/25 | 154 | | |
